

Keshav Sarda

Data Scientist

Experienced **Data Scientist** and **Machine Learning Engineer** with additional experience on **Cloud Platforms** like **AWS** and **GCP**.

Motivated and Ambitious to learn, grow and excel in solving complex problems and having excellent communication skills.

Contact

Address

Hyderabad, Telangana, 500037

Phone

775-305-8503

Education

2013-08 - 2018-12

Bachelor of Science: Physics

IIT - Kanpur

Skills

Work History

2019-07 - Associate Consultant Technology

Current

Virtusa, Hyderabad, Telangana

- Implemented and experienced with **Regression, Classification, Supervised** and **unsupervised** techniques and Machine Learning Algorithms like **Linear, Logistic, Multinomial Regression, Random Forest, Decision tree, SVM, KNN, Clustering, PCA, Naive Bayes, Deep Learning** and **Neural Networks, ARIMA, LSTM**, etc.
- Performed and expert with data analysis and model improving techniques like **EDA, Feature engineering, Dimensionality Reduction, Hyperparameter tuning**, etc.
- Deployed end-to-end **ML Pipeline** using **AWS Sagemaker, MLFlow, Docker Containers, Kubernetes, CI/CD pipelines, MLOps** and **DevOps** techniques and tools.
- Implemented various workflows using **Cloud AI Services** like **AWS Textract, Translate, Comprehend, Polly, GCP Speech-to-text, Text-to-speech, Natural Language, Vision AI, Recommendation AI, Vertex AI, AutoML**, etc.
- Managed and monitored 900+ **Cloud Big Data ETL Pipelines** using **GCP BigQuery, Dataflow, Dataproc (Hadoop), Cloud Storage, DataStudio, Stackdriver, PubSub, Cloud Function**, etc to migrate on-prem data.
- Implemented transform jobs using **PySpark** on **Azure Databricks**.
- Experienced with **Python, SQL, PySpark, R, Scikit-**

Learn, Pandas, TensorFlow, Keras, Excel, MLlib, etc.

2018-07 - Research Consultant

2019-07 *WorldQuant, Mumbai, Maharashtra*

- Developed around **125+** stock market strategies using **Statistical** and **Machine Learning** techniques.
- Implemented **Multivariate Regression, Statistical Modelling, Predictive Analysis** and various **Statistical methods** to **preprocess/clean data** and created market strategy.
- **Backtesting** strategies using **Python/R** in order to check **performance** on **historical data**.
- Achieved average **Sharpe Ratio** of **2.00+** and **fitness** of **1.50+** with **correlation** with pool of less than **0.5**.

Other Experience

- Developed **Speech to Text Analytics workflow** using **GCP speech-to-text** which outputs **user wise sentences** as csv file.
- Developed **real time pipeline** to do **sentiment analysis** on **documents** uploaded to **Cloud Storage** using **GCP Natural Language**.
- Developed **Advanced NLP Search** using **AWS Textract, Comprehend** and **Elastic Search**.

Certifications

- **AWS Machine Learning Specialty** - March'21
- **GCP Professional Cloud Architect** - March'21
- **AWS Developer Associate** - May'21
- **AWS Solutions Architect Associate** - July'20
