EDUCATION

Pgdm in Data Science
IIIT Banglore
2021-2022

Btech in Computer Science
JNTU K
2015-2019

SKILLS

PROFESSIONAL

Python

Machine Learning Alogorithms

NLP

EDA

Data Visualization

Statistics

Data Modelling

SQL

Elasticsearch

PROFILE

2 years experience in Data science and data analysis.Experience in Machine learning algorithms- Supervised & unsupervised.Good understanding of the statistical methods- Sampling,modelling, hypothesis testing & probability. Experience in python, EDA and Data Visualization.

EXPERIENCE

DATA SCIENTIST

TCS | 2020- Present.

- Responsible for implementing Machine Learning algorithms to fetch customer feedback on client's mobile application from different platforms like Play Store, Appstore, Facebook and twitter for APAC countries.
- Performed ETL Process on customer comments using Pandas Dataframe to analyze and perform Sentiment Analysis using NLP, also used Classification algorithms to pull out key areas which needs development .
- Used libraries like Pandas, NumPy, Selenium, Requests, OS - to fetch and store data.
- PyMongo, Elasticsearch - to store in DB.
- Pytest- To test the code. Kibana, Matlpotlib, PyPlot - to Visualize data.
- ScikitLearn, NLTK, Tensorflow etc. to do sentiment analysis on data.

COURSES

- Machine Learning Andrew ng | Stanford University
- Data Science from IIIT B
- Statistics by Khan Academy
